

Plug into the MIG Network

www.memsindustrygroup.org/join

MEMS Industry Group (MIG) gives you instant access to an amazing network. Meet industry leaders throughout the MEMS supply chain; device manufacturers, integrators of MEMS, foundries, equipment makers and material suppliers. MIG membership lets you share insights and experiences and collaborate to pursue new business opportunities.

Develop your business with a MIG membership

- **Plug in.** Meet new customers and partners in a neutral and friendly atmosphere.
- **Reach out.** MIG's PR and marketing programs highlight the success stories of members.
- **Take advantage.** Members gain access to MIG's resource library and collaborative projects.
- **Get involved.** Our members play an influential role in shaping and driving the future direction of MEMS technology. We address and resolve real business and technical issues that hinder the advancement of MEMS commercialization.

Discover

MEMS in the Machine

www.memsiindustrygroup.org/machine

From vehicle stability control to tire pressure monitoring, MEMS makes cars safer. From advanced drug delivery systems to monitoring patients' vital signs, MEMS improves quality of life. From motion-sensing game controllers to virtual reality, MEMS makes gaming more realistic. And from microphones to signal switching in mobile devices, MEMS makes communications clearer.

MIG Events

Collaborate, Partner and Learn

www.memsindustrygroup.org/events

MEMS Executive Congress® Europe 2012

March 20, 2012 | Zurich, Switzerland

Sensors in Design 2012

March 28-29, 2012 | San Jose, California

MIG Industry Partner event

MEMS track sponsored by MIG

M2M Forum®

May 8-10, 2012 | Pittsburgh, PA

Sensors Expo & Conference 2012

June 6-7, 2012 | Rosemont, Illinois

MEMS Pre-Conference Workshop, MEMS Conference Track, and an entire Pavilion dedicated to MEMS and sponsored by MIG

MEMS Executive Congress® US 2012

November 7-8, 2012 | Scottsdale, AZ

MEMS Education Series®

Online Webinar Series

MEMS Executive Congress Europe Preview

Thursday, February 16, 2012 | 11:30 AM ET, 8:30 AM PT

Hosted and presented by Karen Lightman, MEMS Industry Group

M2M Forum Webinar: MEMS Technology Development - An Overview of a MEMS Product Development Life Cycle Template

Thursday, February 23, 2012 | 11:30 AM ET, 8:30 AM PT

Presented by: Tina Lamers, Avago Technologies and Valerie Marty, HP

MEMS Marketplace

Showcase Your Capabilities

www.memsmarketplace.com

MEMS Marketplace is an online portal that serves as a matchmaker for companies throughout the entire MEMS supply chain, from material suppliers to OEMs. MEMS Marketplace is a searchable database of MIG member companies that showcases member products, services, news, and white papers. Only MIG members may be listed in MEMS Marketplace.

Find your Partner

Search MEMS Marketplace for your next partner in the MEMS industry. MEMS Marketplace lets you browse by company or product type or search for a particular product, service, or company. You'll have access to a real person to contact to get your questions answered! Tell them you found them on MEMS Marketplace.
